We're helping retailers become more profitable.

In today's fast-paced retail environment, the right partner can make a world of difference. Our commitment to our clients is simple yet powerful – we work closely with them to maximize the potential of each and every electronic, wireless telecom, photographic imaging, digital imaging, and optical product they carry.

How do we do this? By taking the time to understand the marketplace in which our customers operate as well as their existing product mix, by looking for ways to build on their success, by introducing new opportunities and leading edge products, and by providing after-sales service that is second to none.

Satisfied customers, improved sales, and increased profit margins.

At Gentec International, we achieve these results by working in partnership with our clients. We do our homework – we understand the challenges retailers face and what their customers want. We visit our clients' stores to get a clear sense of what they carry and how they're being presented. Then, we recommend ways that we believe can help increase their sales. This might include additions to the range of products they carry or fresh approaches to packaging, display, and promotion. Finally, we ensure that our clients have everything they need to make the sale – from custom displays to point-of-purchase support. And, throughout the year, we make regular visits to provide in-store detailing.

Our clients count on us for effortless ordering and error-free fulfillment.

Gentec International's high cube, state-of-the-art computerized 100,000 square foot warehouse and distribution centre allows us to offer efficient, seamless service to our customers.

We manage our stock with the goal to eliminate back orders. In fact, based on our clients' forecasts, we guarantee we'll have 100% of the items they need in stock, 100% of the time. Plus, when they place an order with Gentec International, most shipments leave our warehouse within 24 hours. And we make every effort to ensure that the shipment is accurate – so that everything they ordered arrives.

At Gentec International, we also make regular investments to ensure that our ability to serve our clients continually improves.

A reputation for service and a head for business.

The same principles our clients used to build their companies are at work in ours. With the support of over 100 people in the Gentec family worldwide, our management team has the depth of experience and breadth of knowledge needed in today's fast-paced world. And, we're constantly evaluating our people, processes, and products to ensure that we are exceeding our customers' expectations.
